

◆ MENU & WINE LIST ◆

# Welcome to dinner at the Green Park Hotel

---

**To make your reading of this evening's menu a more convivial experience, our wish would be to serve each and every one of you individually with complimentary sherry or soft drinks. That said, if you find us otherwise preoccupied with affairs of state, please do not hesitate to help yourself and anyone else close at hand. No questions will be asked as to the amounts of Amontillado or fruit juice dispensed in our absence.**

Once you have had a sufficient amount of time to familiarise yourself with the menu, please proceed through to the dining-room where there will be a table ready for you. As a hotel run along truly egalitarian lines, we do not allocate tables in advance, but operate on a first come, first served basis.

**We will be on hand to take your order, once you have been seated in the dining room.**

If you would like to take a break at any stage between dinner courses, then please just stand your table number in the vertical position. We promise to leave you alone until you place the table number horizontally again.

If you have any questions about any food items on the menu, **especially any allergen queries**, please do not hesitate to ask at any stage. If we do not know the answer straight away, we will be sure to consult the oracle, and find out for you.

# Wine List Tasting Guide

---

**To help you in your choice of wine, you will find a number or a letter against each wine which will indicate the style of wine you are choosing.**

If it is a white wine, then a **number** will give an indication of how dry that wine is. For instance number **1** would tell you that the wine is very dry, number **2** would still be dry but not as dry as number **1**, and so on. This follows right up to number **9**, which would describe a very, very, sweet white wine. Where it becomes complicated is that most white wines are numbered between **1** and **3**, and rarely go above **4**!

In the case of red wines, then a **letter** is used to indicate how light or full-bodied the wine is. The letter **A** for instance would tell you that it is a light-bodied red. The letters **B & C** would indicate a more medium-bodied style of wine, while **D & E** would mean that the wine would be full-bodied.

Please just let us know in advance if you would like your choice of red wine opened in advance of you going through to the dining-room. This can be done at any stage prior to dinner.

We have tried to gently pressurise our wine suppliers to come up with as wide a choice of half bottles as possible. That said, do not worry if you find that a full bottle is too much to drink in one sitting - just leave the bottle on your table, and ask for it again the following evening. All we will need to know is your room number.

If wines of one year can no longer be supplied, we will try and offer the same wine from as near a year as possible.
